

Faculty position in Control Engineering at “Université libre de Bruxelles” (Brussels, Belgium)

Faculty of Applied Sciences/ Ecole polytechnique

Université libre de Bruxelles (ULB) invites applications for a faculty position in control engineering, including control theory and applications, mathematical modelling of dynamical systems and system identification. The applicant should have a doctoral degree, a postdoctoral experience and a list of publications in recognized scientific journals and conferences. A teaching experience, as well as an experience in the preparation and management of research projects, are considered as advantages. The successful applicant is expected to develop an independent and internationally recognized research programme, and to collaborate with other research groups within ULB, the other Belgian Universities and international academic institutions. The applicant should be able to teach in English, and also in French, possibly after a transition period of one or two years.

The « Ecole Polytechnique » of Université libre de Bruxelles (ULB) is located in the Solbosch Campus of ULB, in the South of Brussels. It has close ties with other major Engineering Faculties in Europe, notably through the TIME network. With more than 21000 students, 29% of whom come from abroad, ULB is intrinsically an international institution open to both Europe and to the whole world.

How to apply will appear soon on the web site of “Université libre de Bruxelles”: <http://www.ulb.ac.be/ulb/vacances/academiques/index.html>. The closing date for the applications is February 28, 2010. The appointment will start in October 2010.

Interested applicants can obtain further details from Professor Michel Kinnaert
